To
Whomever It May Concern

PROPRIETARY CERTIFICATE for STATIM Cassette Autoclaves

The **STATIM 2000, 2000S, 2000 G4, 5000, 5000S, 5000 G4 Cassette Autoclaves** are our proprietary products and they are manufactured only by us, SciCan Ltd., 1440 Don Mills Road, Toronto, ON Canada, M3B 3P9. No other company manufactures the **STATIM** family of cassette autoclaves

The **STATIM Cassette Autoclaves** feature a removable stainless steel cassette, which, when inserted into the insulated steel receptacle, forms the sterilization chamber. This unique construction is what differentiates the **STATIM** family of cassette autoclaves from traditional round chamber type sterilizers.

The **STATIM Cassette Autoclaves** utilize a *pressure pulse method* of dynamic air removal and are also designed with a much smaller sterilization chamber that allows for a faster turnaround time for smaller loads. Loads of several smaller instruments, which would not traditionally be processed through the larger hospital sterilizer units due to load constraints, can be sterilized using the **STATIM Cassette Autoclaves**.

Thank you,

Vik Sharma
