- 2) All bidders must quote the rate of all tabulated/tendered items/tools, otherwise price bid of the bidder will not be considered for evaluation purpose.
- 3) So every bidder should quote rate of each tendered item, otherwise financial bid will not be considered and liable to be rejected.
- 4) All the bidders must highlight the cost of each test against the name of each test in the given format.
- 5) All Bidder's will have to quote the reagent price which include the cost of calibrator and control considering control of high, normal/low will run daily and calibrator will run as per requirement. But bidder has to provide free of cost including all type of cleaning solution for maintenance of machine, preventive maintenance kit (Tubing, Valve, Membrane, Plastic, Glassware etc.).
- 6) Buyer had to pay only cost of test reagents.
- 7) In other words, the calibrator & controls/spares & accessories are required in routine or preventive maintenance will be provided free of cost by the bidder and Blood collection and preparation material will given by hospital (i.e. Syringe, tubes, sprit and gauges etc.).

Note:

- 1) Above projected no. of tests is only average test load which can be increased or decreased, it is only for calculation and finalization of price bid of the bidders.
- 2) All bidders must quote the rate of all tabulated/tendered items/tools, otherwise price bid of the bidder will not be considered for evaluation purpose.
- 3) So every bidder should quote rate of each tendered item, otherwise financial bid will not be considered and liable to be rejected.
- 4) All the bidders must highlight the cost of each test against the name of each test in the given format.
- 5) All Bidder's will have to quote the reagent price which include the cost of calibrator and control considering control of high, normal/low will run daily and calibrator will run as per requirement. But bidder has to provide free of cost including all type of cleaning solution for maintenance of machine, preventive maintenance kit (Tubing, Valve, Membrane, Plastic, Glassware etc.).
- 6) Buyer had to pay only cost of test reagents.
- 7) In other words, the calibrator & controls/spares & accessories are required in routine or preventive maintenance will be provided free of cost by

the bidder and Blood collection and preparation material will given by hospital (i.e. Syringe, tubes, sprit and gauges etc.).

Note:

- 1) Above projected no. of tests is only average test load which can be increased or decreased, it is only for calculation and finalization of price bid of the bidders.
- 2) All bidders must quote the rate of all tabulated/tendered items/tools, otherwise price bid of the bidder will not be considered for evaluation purpose.
- 3) So every bidder should quote rate of each tendered item, otherwise financial bid will not be considered and liable to be rejected.
- 4) All the bidders must highlight the cost of each test against the name of each test in the given format.
- 5) All Bidder's will have to quote the reagent price which include the cost of calibrator and control considering control of high, normal/low will run daily and calibrator will run as per requirement. But bidder has to provide free of cost including all type of cleaning solution for maintenance of machine, preventive maintenance kit (Tubing, Valve, Membrane, Plastic, Glassware etc.).
- 6) Buyer had to pay only cost of test reagents.
- 7) In other words, the calibrator & controls/spares & accessories are required in routine or preventive maintenance will be provided free of cost by the bidder and Blood collection and preparation material will given by hospital (i.e. Syringe, tubes, sprit and gauges etc.).
